## Oven

## Product Highlights

**Wifi connection** Thanks to its connectivity, your oven can be controlled remotely via your smartphone, for example from your workplace. This saves a lot of time when you get home and the application is very easy to use.

**Culinary Guide 50** A selection of 50 dishes for automatic cooking: select the weight of the food, the oven programs itself in terms of time, temperature and cooking function. Of course, the oven is automatically switched off at the end of the cooking process.

**CHEF mode** Exclusive: In Chef Mode, the oven automatically manages all cooking settings (temperature, mode and cooking time). Select the type of dish, put it in the oven at the recommended level and enjoy it when it is done. That's it!
